

Guidelines for allocating funding for international leave:

PhD Candidates and Postdoctoral fellows in NMBU's recruitment positions and Residents.

Guidelines:

- Awarding of grant presupposes support by the department and the supervisor.
- Applications for an international leave should be at least two and a maximum of six months.
- Multiple periods at different institutions may be granted - maximum 2.
- If there are other alternative sources of funding, application shall be made to that source. If an application for funding for travel and living expenses from sources other than NMBU is accepted, the grant from NMBU will be reduced.
- International living expenses will be calculated according to the rates published by the Research Council of Norway.
- Funding will not be allocated for course fees, conferences, "bench fees" or operating expenses.
- If there are more applications than the budget covers, grants will be reduced and the principle that "as many as possible applications should be granted" will be used.
