

## **Vision for student life at the Norwegian University of Life Sciences**

### VISION

- NMBU will be a unique university environment. Students and employees' professional and personal development is characterized by equality and solidarity. This will ensure active participation as citizens in the university environment.

### *Organizational Culture*

- The university environment shall have an inclusive and diverse organizational culture. Defined rights and responsibilities of students and staff shall provide a safe and attractive university environment.
- The university environment shall educate candidates who are assets to society.

### *Study Environment*

- The university environment shall have solid collaboration with local government and organizations.
- The university environment shall house quiet areas with good infrastructure and availability for use
- The university environment shall facilitate professional and social activities on campus.

### *International Campus*

- The university environment shall have a cultural diversity.
- The university environment shall be appealing for international students.

### *Reputation*

The university environment shall together build a positive reputation that is stimulating and in favor of all parties: SiÅs, Samfunnet i Ås, Student Parliament, and NMBU. These parties commit themselves to adopting the Vision by preparing action plans by 1 February 2015. These action plans will be revised every 2 years and presented to the summit meeting.
