Outreach activities

>400 reports and popular science papers. I am part of a panel of scientists in a popular science radio program broadcasting every week, and run a science blog together with colleagues <http://blogg.nmbu.no/insektokologene/>. Since 2015, my outreach activities have typically included ~15 popular articles in newspapers with my byline, ~50 interviews in newspapers etc, ~30 appearances on national radio/TV, and 50-80 popular science talks, per year, in addition to an increasing number of appearances in media abroad (BBC Breakfast live, essay in Washington Post etc). In 2018 I published a popular science book on insects and their importance, [Insektenes planet](#), nominated for the Brage book award as best popular science book of 2018 and now translated into 23 languages. In 2019 and 2020 I published the children’s books [Insektenes hemmeligheter](#) and [Dovendyret og sommerfuglen](#).
