

Student Parliament 2 2017

Student Parliament is open for everyone,
welcome!

Monday March 13th 2017
16.30 – 21.00
TF 102, Wing III

Case documents are available:
<http://www.nmbu.no/student/studenttinget>

AGENDA

STUDENT PARLIAMENT 2 - 2017, MONDAY 13th OF MARCH AT 4:30PM, TF102, wing III.
COMPLETE CASE DOCUMENTS ARE ONLY SENT TO PERMANENT STUDENT REPRESENTATIVES.
THE DOCUMENTS ARE ALSO PUBLISHED AT CLASSFRONTER AND THE STUDENT BOARD WEBSITE:

<http://www.nmbu.no/student/studenttinget>

Registration begins at 16:15!

19

20 1722.1 Minutes

21

22 The minutes shall be put directly into the Student Democracy room at Fronter (Class Fronter)
23 within 12.00 the Wednesday before Student Parliament.

24 This is done to get the most updated minutes, and minimize paper usage. Copies of each
25 minutes will be printed out and kept at the Student Democracy office, together with the case
26 papers from the current Student Parliament.

27 Those who report to the Student Parliament through minutes are:

- 28 - The Student Board (AU)
- 29 - The University Board (US)
- 30 - The Education Board (SU)
- 31 - Student Welfare Organization in Ås (SiÅs)
- 32 - Student and Academics international helping fund (SAIH)
- 33 - International Student Union (ISU)
- 34 - The Research Board (FU)
- 35 - The Learning Environment Committee (LMU)

39

40 1722.2 New Rules for Room Booking on Campus

41
42 *Case responsible: Mariya Khanamiryan*

43 **Purpose:**

44 To orientate the students about the new regulations that have been put into place by the
45 administration. Here is the link for the new rules for booking rooms:

46 [http://intern.nmbu.no/statisk/fr/godkjent regelverket for utlan av rom ved campus as 002.](http://intern.nmbu.no/statisk/fr/godkjent%20regelverket%20for%20utlan%20av%20rom%20ved%20campus%20as%20002.pdf)
47 [pdf](http://intern.nmbu.no/statisk/fr/godkjent%20regelverket%20for%20utlan%20av%20rom%20ved%20campus%20as%20002.pdf)

48 **Background:**

49 After an administrative meeting (Toppmøte) that was held on February 17, NMBU informed
50 about the reasoning for the adjustments that have been made concerning *Room Booking at*
51 *NMBU*.

52 Below is the statement from NMBU about the changes. The statements is adapted by removing
53 the personal content.

54 *"When NMBU revised the room booking regulations, it was following up on an interpretation of*
55 *the law and that the practice of the rules were not in accordance with the alcohol policies of the*
56 *Ås commune.*

57 *Because of the legality of this, there was little that could be discussed and negotiated in regards to*
58 *the booking rules.*

59 *NMBU has been contacted many times by Ås commune. They pointed out that the alcohol*
60 *regulations have been broken when NMBU has allowed the booking of buildings for events where*
61 *alcohol is consumed.*

62 *Excerpt from*

63 [*Lov om omsetning av alkoholholdig drikk m.v. \(alkoholoven\) §8-9*](#)

64 *"It is forbidden to drink or serve alcohol unless there is a license to do so, even when this occurs*
65 *without charging for it:*

66 1 in locations in close proximity to where there are serving facilities

67 2 in facilities that are usually open for public use

68 3 in meeting halls or other public gathering spaces"

69
70 *In accordance with this paragraph, alcohol cannot be consumed or served in NMBU's facilities,*
71 *unless there is a license to do so. NMBU falls under these three categories, especially the second*
72 *point. This is an overview of the laws and regulations that are the background for the changes*
73 *that have been made in the room reservation policies."*

74 Inform student about the upcoming elections for the president and vice president for the
75 Student board and 2 representatives and 2 deputy for the University Board.

76 **Background:**

77 Student Board.

78 There is going to be held electronic elections of president and vice-president for the Student
79 Board. They are case responsible for the Student Parliament, follow the decisions that are
80 voted in at the Student Parliament, and represent the Student Parliament in between the
81 meetings. President has the responsibility for the strategical work, while the vice-president is
82 responsible for the organizational part in the organization. President works a lot with and
83 towards the leadership at NMBU, while vice-president has the main contact with the

representatives in the organization.

Student Board consists of 6 members: President, vice-president, international officer, welfare officer, marketing responsible and board member. President and vice-president sit at their position full time, while the rest of the members sit part time and are student on the side. Student board is a collegiate organization, which means that every member is equal member of the board. Student Board also has its own secretary.

University Board:

University Board at NMBU is the highest decision authority at NMBU. University board consists of one external board leader, and board members that are both external and internal from NMBU.

The University Board mainly works on issues regarding strategy, economy, goal management, reports and organizational development on a superior level. The University Board has 7-8 meetings per year. Beyond this it is desired that one represents at the Top meetings, the Student Boards internal meetings, and meetings held by the Senate. The Board members must also mandatorily report to the Student Parliament. They should also be represented during the Student Parliament meetings.

Amongst the students there shall be elected to permanent board members and two personal deputies. According to the regulations both sexes should be equally represented. After the merge it is no longer clarified in the regulations of the election that both campuses should be represented, but it is still the intention until the merge is fully completed.

Students that want to run for election to the Student Board should have earned experience from working with boards (Institute Board, Faculty Board or equivalent) or experience with committees on a higher level. (UFU/USU).

Permanent representatives:

These representatives start 1st July 2016, and is elected for one year.

1723 Decision Cases

1723.1 Revision of the Statutes for the Student Democracy at NMBU

Case responsible: The committee for amendment proposals for the statutes of the Student Parliament

Attachments:

- Existing Statutes with Line Numbers (Attachment 9)
- Amendment proposal (Attachment 1)
- Entire Proposal based on the settings of the Illustration (Attachment 10)

Purpose:

The purpose of this case is to bring forward proposals to amendments of the Statutes for the Student Democracy at NMBU in line with the mandate given by the Student Parliament on 28.11.2016. The need for revision is due to both the structural changes at NMBU as an institution, and internal changes in the student democracy. The goal of the revision is to bring

forward proposals that both clarify and modify the statutes so that they represent the Student Democracy we have today, with an overarching goal of keeping it in a functional format.

Background:

Since they were selected by the Student Parliament on 28.11.2016, this committee has held 8 meetings as well as working online together between the meetings. The statutes case is developed based on discussions from the Student Parliament 1. The committee has taken into consideration the input from both the Student Parliament and other relevant sources while founding the proposals that are outlined here.

The Statutes are the highest authority document in the Student Democracy. Therefore, the committee has had an overarching goal of balancing the need for clarification and the addition of new elements with consideration of the functionality and user friendliness. The committee feels that such a balance means that the most basic elements must be as clear as possible, even though not everything can be defined concretely in the statutes.

The committee has come up with a number of amendment proposals. These are of various subjects including the reorganization of NMBU, structural changes in the document, and the implementation of new decisions. The proposals are too many to go through them all here, but all are justified for in the presentation of the individual proposals. The proposal covers, among other things: the decision about partiality, place resignation, the control committee, and electronic decisions. Together with a tidy structure and chapter division, the committee's idea is that the recommended proposals that are presented here will give the Student Democracy at NMBU statutes that are in accordance with today's needs and that balance the overarching goal.

The student board is impressed with the work of the committee for amendments for Statues for the Student democracy NMBU and means that the throughout work is very good.

The student board recommends the proposals from the committee, except for the following:

- Proposal nr 2.
 - The student board means that the date of establishment of the document and only the last date of revision of the document should be written on the document, because this information should be sufficient. We see writing all the dates problematic, if the document should be edited every other year. This will make the document messy with a lot of unnecessary information.

Proposed resolution:

The proposal for the Statutes for the Student Democracy at the Norwegian University of Life Sciences is approved. This allows for editorial changes.

1723.2 Revision of the rules of procedure and agenda for the Student Democracy at NMBU

Case responsible: The committee for amendment proposals for the statutes of the Student Parliament.

Attachments:

- The current rules of procedure and agenda with line numbers (Attachment 11)
- Amendment Proposal. (Attachment 2)

- Entire proposal based on the settings of the illustration to show the entire plan (Attachment 12)

Purpose:

The purpose of this case is to bring forward proposals to change the rules of procedure and the agenda for the Student Democracy at NMBU in line with the mandate given by the Student Parliament on 28.11.2016. The need for revision is due to both the structural changes at NMBU as an institution, and internal changes in the student democracy. The goal of the revision is to bring forward proposals that both clarify and modify the rules of procedure and agenda so that they represent the Student Democracy we have today, with an overarching goal of keeping it in a functional format.

Background:

Since they were selected by the Student Parliament on 28.11.2016, this committee has held 8 meeting as well as working online together between meetings. The rules of procedure and agenda is developed based on discussions from the Student Parliament 1. The committee has taken into consideration the input from both the Student Parliament and other relevant sources while founding the proposals that are outlined here.

The rules of procedure and agenda describe how the Student Parliament meetings should be conducted. The purpose is for all meetings to be consistent and for there to be tools for the meeting leaders and Student Parliament that elaborate the statutes. The committee therefore has an overarching goal of both clarifying and over bureaucratization of the meetings. It is therefore proposed to remove certain elements as these can be seen as unnecessary specifications, and can lead to unnecessary bureaucracy and hamper the flow of the meeting. The committee has also proposed a number of changes and clarifications to make the agenda a more user-friendly tool.

The proposals are too many to go through them all here, but all are justified for in the presentation of the individual proposals. However, the committee would like to outline some of the most central elements: to introduce petitions, switch from simple majority voting to 50% majority voting, to change the time allowed for responses, to get rid of the decision on the number of responses per participant and the elimination of administrative cases.

The committee's hope is that the collection of proposals that are presented here will give the Student Democracy at NMBU rules of procedure and an agenda that are aligned with the current needs, and that balance clarification and bureaucracy in a better way than previously.

Student Boards remarks

The student board is impressed with the work of the committee for amendments for the Rules of Procedure and Agenda and means that the work is very good.

The student board recommends the proposals from the committee, except for the following:

- Proposal nr.1
 - The student board wishes that the proposal from the committee stands, but suggests adding the usage of voting signs in student parliament meetings. The recommendation must be seen in context with proposal 19.
- Proposal nr. 6.
 - The student board wishes that point 2.2 remains as it does today. It is not clear to everyone what meeting culture purports. There are new representatives in the

student parliament every year, and every year some of these do not have good enough knowledge about the organisation.

- Proposal nr. 8.
 - The student board do recommend that the speech time remains at 30 seconds. A reply is supposed to be a short and brief comment about why you do not completely agree with that what has been previously said. The student board means that 30 seconds is enough. In addition, the student board finds the argument for the proposal, which is based on that “the 30-second rule is not followed through today”, to not be good enough. As a result, chairmen should be stricter.
- Proposal nr 9a and 9b.
 - The student board wishes that chairmen maintain this position, because they have control over how implementation of the meeting is going and they have a good overview of the debates and the time usage.
- Proposal nr. 10.
 - The majority of the student board wants to maintain practise we have today. The student board want the representatives to have some outlines to follow. In addition, the student board finds the argument that “these rules are not followed today”, to be too weak.
 - Dissent 1. Minority in the student board, Ina Catharina wishes the point to be removed in line with the committee’s proposal. The reason is that this rule restrains the debate because each representative only has two entries. This rule also limits the case presenters to two entries and they would have to use comments or case information’s to contribute. In addition, Ina Catharina is certain there are other outlines for debates, which chairmen can implement if point 2.6 is removed.
- Proposal nr. 15.
 - The student board disagrees that this whole part should be removed and wishes to keep most of it. The student board wishes to remove the first part, but suggests a change to the second part of 2.11: “*the chairmen should at regular intervals, refer to the speaking list and after every entry inform of any comments to the entry*”. The suggestion shall be sent out.
- Proposal nr. 16.
 - The Majority of the student board wishes to keep the original text. It is not desirable that chairmen inform the student parliament who is allowed to speak based on their previous level of activity in the debate. The rules today make it possible for chairmen to fulfil the purpose the committee seeks, without having to inform the student parliament.
 - Dissent 2. Minority in the student board, Johanne supports the proposal of the committee, because it is important that chairmen inform about the processes happening during student parliament. If this information is not communicated, some representatives will may feel overrun. With the committees proposal chairmen can suggest to prioritize and the student parliament can decide whether or not they want this.
- Proposal nr. 18
 - The majority of the student board wish to keep the original text because the proposal will add an unnecessary amount of bureaucracy for the student parliament.

- Dissent 3. A minority in the student board, Ina Catharina supports the committee's proposal. This recommendation is valid only if proposal 10 from the committee is not voted in by the student parliament.

-

- Proposal nr 23.
 - The student board does not agree with the committee's proposal and therefore agrees with Kine's dissent. The argument for this is that it will secure neat procedure.
- Proposal nr 24.
 - As a result from the recommendation for proposal 23, the student board recommend to maintain administration cases as a case type for the student parliament.

Proposed Resolution:

- *That the rules of procedure and the agenda for the Student Democracy and the Norwegian University of Life Sciences are revised.*
- *The Student Parliament's Student Board has the full ability to follow through with editorial changes.*

1723.3 Allocation of welfare funds for spring 2017

Case Responsible: Tord Hauge

Attachments:

- Overview of Applications (Attachment 3)
- Proposed Allocation for Spring 2017 (Attachment 4)

Purpose:

To approve the allocation of welfare funds for spring 2017.

Background:

Every year, the Student Parliament allocates welfare funds to clubs and societies at NMBU. A committee put together by the Student Board and Student Parliament works out a proposal for the distribution of welfare funds in accordance with the rules for allocating welfare funds. The committee consists of two representatives appointed by the Student Parliament. The rest are appointed to the committee because of positions they already hold.

The Committee for spring 2017 consisted of:

- Tord Hauge (The welfare officer in the Student Parliament's Student Board)
- Lise B. Hovd (The International Officer in the Student Parliament's Student Board)
- Fredrik F. Ellingsen (The treasurer of Student Society Board)
- Ingrid L. Wigestr nd (Committee Member in the Si s Board)
- Halvor H. Kongevold (The previous welfare officer in the Student Parliament's Student Board)
- Anniken L vrig (Elected by the Student Parliament)
- Ida Marie Munthe Sakseide (Elected by the Student Parliament)

In 2017, the Student Parliament can distribute 400,000 kr in welfare funds. In the spring, the committee decides how much of the allocated money should be set aside as society meeting funds. This year, they decided that 63,035 kr should be set aside for community meeting funds. 8% of welfare funds are allocated at the Student Parliament 5 in the fall, and the rest are allocated at Student Parliament 2 in the spring.

The Committee's Assessment:

The Proposed allocation funds for spring 2017 (attachment 4) and the overview of applications (attachment 3) are attached. Spring 2017 saw 73 applications and the total amount applied for was 678,663 kr. The welfare committee proposes to distribute 304,964 kr in welfare funds, as well as 63,053 kr in community meeting funds. The amount of community meeting funds is greater than last time (44,527 kr), because we received a good number of applications for activity funds that we feel actually fall under the category of community meeting funds.

Many applications lacked attachments, such as accounting and budgets. The welfare officer gave the clubs and societies lacking this the opportunity to correct this. Bad budgets and accounting was something that was seen in many applications, but was corrected in most. Welfare funds were not given to those whose applications did not meet all the requirements. The committee wishes to encourage events that are open to all with an open opportunity for participation. Most funds are marked to make sure that the money goes to activities that we feel should be supported by welfare funds.

Proposed Resolution:

The Student Parliament approves of the distribution of welfare funds for spring 2017 that are outlined in attachment 4.

1723.4 Work instruction for The Student Parliaments committee of the semester's best lecture

Case responsible: The members of the committee 2016

Attachment:

Work instructions for The Student Parliaments committee of the semester's best lecture (Attachment 5)

Purpose:

Approve the work instruction for the committee of the semester's best lecture

Background:

The committee of the semester's best lecture contributes in the work for higher education quality at NMBU by announcing a winner of the price each semester. Today, there is no work instruction for the committee, even though this distinction is considered high among the academic employees. When the committee started last year, they missed guidelines in the work and have now compiled a suggestion for a work instruction.

Proposed resolution:

The Student Parliament approves the work instruction for the committee of the semester's best lecture.

384 1723.5 Changes to the Schedule

385

386 *Case responsible: Mariya Khanamiryan*

387

388 **Attachments:**

389 Schedule 2017 (Attachment 6)

390

391 **Purpose:**

392 To move Student Parliament 3 from Monday, April 24th to Tuesday, April 25th.

393

394 **Background:**

395 Due to a holiday (Easter), the Student Parliament's Student Board would like to move Student
396 Parliament 3 from Monday, April 24th to Tuesday, April 25th. This means also moving the
397 deadline for when the case papers are out to April 18th instead of April 17, which is the second
398 day of Easter. In addition, we would like to inform the Student Parliament of a mistake in the
399 schedule. It states that the deadline to send in cases is April 3rd. This should be April 10th, but
400 due to the fact that this is during Easter holiday, we would like to make the deadline for
401 sending cases in April 7th instead.

402

403 **Proposed Resolution:**

404 The Student Parliament decides that Student Parliament 3 should be moved from April 24th to
405 April 25th, and that the deadline for when the case papers are out is moved from April 17th to
406 April 18th. The Student Parliament also approves of changing the deadline to send in case
407 papers from April 3rd to April 7th.

408

409

410 1724 Discussion Cases

411

412 1724.1 Teaching Excellence

413

414 *Case Responsible: Ina Catharina Storrønning*

415

416 **Purpose:**

417 To discuss what the students think is teaching excellence

418

419 **Background:**

420 In February, the Norwegian Parliament sent out a message about quality in higher education:
421 "Culture for quality in higher education" explaining that the government has put education
422 quality on the agenda. Following this, many institutions in Norway have to come up with a
423 proposal for assessing teaching that will be incorporated into the hiring and promotion system.
424 NMBU will appoint a group to oversee such an assessment system. The Student Board
425 therefore wishes for input about what the student body believes is excellence in teaching. The
426 Student Board also sees the need for the Student Democracy to have a common understanding
427 for such work in the future. These are the proposed discussion points:

428

429

430

- What do the students feel is emphasized in a good teacher
- What needs to happen for students to be motivated in their studies

- 431 • To what degree do the students wish to be involved in the research environment
432 associated with their faculty
- 433 • How can students become a part of the teaching process as active participants,
434 and to what degree should this form of teaching be present?
- 435

436 1724.2 The Internationalization Conference

437
438 *Case responsible: Lise Benette Hovd*

440 **Purpose:**

441 To discuss internationalization at NMBU

443 **Background:**

444 The Student Parliament's Student Board would like input about what the Student Parliament
445 thinks about internationalization at NMBU. An internationalization conference is taking place
446 on March 15-16th with HIOA and NMBU, and because of this, the Student Board wants input
447 from the Student Parliament about internationalization at NMBU.

448 Based on input from the Student Parliament, the Student Board will create a proposal as a
449 resolution at Student Parliament 3.

451 Discussion Points:

- 452
- 453 • What do you think the international students bring to NMBU that is important?
 - 454 • What do you think is crucial about Norwegian students going on exchange?
 - 455 • What should NMBU do to get more Norwegian students to go on exchange?
 - 456 • What do you believe is the most important experiences one gains through exchange?
 - 457 • What needs to happen for the international students to be included and integrated into
458 the student environment at NMBU?
- 459

460 1724.3 Long-term strategy for the Student Parliament at NMBU 2017- 461 2020

462
463 *Case responsible: Mariya Khanamiryan*

465 **Attachments:**

466 The long-term strategy for the Student Parliament at NMBU 2017-2020 (Attachment 7)

468 **Purpose:**

469 To discuss the long-term strategy for the Student Parliament at NMBU

471 **Background:**

472 Throughout the Student Parliament's kickoff conference 2017, the student representatives
473 were asked to discuss and map out a long-term strategy for the Student Democracy for the next

474 3 years. 3 years was set as the “long-term” because this is the average amount of time that a
475 student attends NMBU.
476
477 All of the input that was given during this conference has been noted, and after the Student
478 Board had an internal seminar, a draft of a long-term strategy was created. The long-term
479 strategy will help the organization to have a better overview over the goals for the next 3 years
480 and will secure continuity within the organization. The plan of action will be a yearly document
481 used to help to reach the goals in the long-term strategy.
482
483
484 The Student Board asks the Student Parliament to give input on the long-term strategy. A final
485 draft will be presented as a decision case at Student Parliament 3.
486
487

488 1724.4 Plan of Action for the Student Democracy 2017

489
490 *Case responsible: Mariya Khanamiryan*
491

492 **Attachments:**

493 Plan of action for the Student Democracy at NMBU 2017 (Attachment 8)
494

495 **Purpose:**

496 To discuss the plan of action for the Student Democracy at NMBU
497

498 **Background:**

499 The plan of action for the student democracy is a document that maps out the measures that
500 the Student Parliament at NMBU and the Student Parliament’s Student Board will work on in
501 the coming year (2017).
502

503 Based on the long-term strategy and input from the Student Parliament during the kickoff
504 conference, the Student Board has worked out a draft that we ask the Student Parliament to
505 give input on. Based on the input and comments that come from Student Parliament 2, the
506 Student Board will come forward with a final draft of a plan of action that will be presented as
507 a decision case at Student Parliament 3.
508
509

510 1725 Administrative Cases

511 1725.1 Election of representatives to the board of complaints

512
513 *Case responsible: The Election Committee*
514

515 **Purpose:**

516 To elect two main representatives and two deputy representatives to the board of complaints.
517

518 **Background:**

519 We need two students to sit in the board of complaints, and two deputies for these students.
520 This is a paid position where one is paid for two hours of preparation time in addition to the
521 entire meetings. A meeting lasts an entire working day. The board of complaints handles,

amongst other things, complaints over formal errors with exams, and annulments of exams or tests. It is also the board of complaints that handle complaints about teaching and the learning environment. The position can be fitting for students interested in law, but that is not a requirement. The position begins on July 1, 2017, and lasts one year. The number of meetings vary a bit, but in 2015 and 2016 there were 8 meetings a year.

Main representatives:

Two main representatives are to be chosen, and the representatives will hold the position from 01.07/2017-30.06/2018.

Candidates:

Deputy Representatives:

Two deputy representatives are to be chosen, and the representatives will hold the position from 01.07/2017-30.06/2018.

Candidates:

- Sunniva Brajkovic

1725.2 Election of representatives for the central admissions committee

Case responsible: The Election Committee

Purpose:

To elect two main representatives and two deputy representatives to the central admissions committee

Background:

Not all who wish to study at NMBU by applying through samordna opptak meet the grade requirements with their grades from secondary school. It is therefore necessary to have a central admissions board that can assess and rank the applications, and decide which students will be offered admission to NMBU. The committee will consist of one faculty representative from each faculty, one representative from the Student Board, and two student representatives. The committee has previously had about three meetings a year, in the beginning of July.

Main representatives:

Two main representatives are to be chosen, and the representatives will hold the position for one year.

Candidates:

Deputy Representatives:

Two deputy representatives are to be chosen, and the representatives will hold the position for one year.

Candidates:

20 Attachment 1 Proposed Amended Statutes for the Student Democracy

21

Propo- sal nr.	Ref line nr.	Type of change (Amend- ment, Addition , Removal)	Original text	New text	Reasoning	Proposals that are approved of together
1	1	Am	Statutes for the Student Democracy at NMBU	Statutes for the Student Democracy at the Norwegian University of Life Sciences	In a formal document, the abbreviation in the title should be avoided.	
2	2	Am	Revised at Student Parliament 7, on November 28, 1026	Approved at the foundation meeting: 27.11.2013. Revised: 16.02.2016; 14.11.2016; 13.03.2017.	The committee believes this is cleaner, and makes it easier to trace changes in the statutes.	
3	3	Ad		Chapter Overview:	There should be a chapter overview put into place that will give a better overview of the document. Numbering and final division will be edited depending on what is approved.	
4	6	Am	Chapter 1: Purpose and intentions	Chapter 1: Purpose and Scope	The committee feels that scope is a better word choice than intentions.	
5	8	R	towards the institution and welfare organization.		The committee believes that the student democracy should promote the viewpoint of students towards all actors, not just a limited number.	

6	9	Ad		§1-2 Scope These statutes apply to all organs of the Student Democracy at NMBU and are subject to national law and regulations. Instructions approved after chapter 8 cannot go against these statutes.	The committee wishes to define the scope of the statutes.	
7	10	Am - move	§1-2 Eligibility for the Student Democracy	§5-1 Eligibility for the Student Democracy	The committee thinks it is more natural to have this section about eligibility in a chapter that covers elections.	Approved together with proposal 37
8	10	Am	§1-2	Eligibility for the Student Democracy. The head rule is that students at NMBU can run for positions in the Student Democracy. This applies unless otherwise specified.	This change will imply that students who will finish with their studies don't need to withdraw from the position. The Committee thinks it necessary to clarify who can run for positions. If proposal 7 is approved, this will be moved to the new place §5-1	
9	13-15	Am - move	§1-3	§1-3 Move to chapter 10. Membership in the national student organization	The Committee believes that it is more natural to have a new chapter about NSO at the end of the document	Approved of together with proposal 54
10	22-23	R	Construction of the Student Democracy at NMBU at a central level is described in chapters 3-7 of these chapters		The committee feels that this sentence should be removed because it gives little information. The introduction of chapter overviews will give a better overview. If the proposal fails the chapter must be updated editorially.	

11	25-28	Am	§ 2-2 At the faculty level (...) the Faculty's student council (...) The highest student politics body at a faculty level is the faculty's general assembly (...) stands the faculty's student council	§2-2 Faculty level (...) student council (...) The faculty's general assembly is the highest student politics body at a faculty level (...) stands	These editorial changes are to clean up the language of the document. The Faculty's student council is seen as an unnecessary term since there is no longer an institute level at NMBU.	
12	31-16	R	In accordance with the working instructions that were brought forward and approved of at the faculty general assembly in fall 2016. In these statutes, the faculty is defined through the structure that is approved of by the university board on 16.06.2016.		The committee wishes to remove this. §2-2 will therefore end with the words "(...) for the daily operation and representation of the faculty's student democracy." The committee doesn't feel like it adds anything to the statutes, plus it is strange given that the instructions were approved of by the Student Parliament	
13	40-42	Ad	§3-1 (...) The Student Parliament has the responsibility of informing about decisions being made.	§3-1 (...) The Student Parliament has the responsibility of informing about decisions being made. The decisions must follow at the closing of a meeting. §3-6.	The committee sees it necessary to refer to §3-6 to specify what follows practically after a meeting.	
14	47	Ad		The division method for the distribution of seats follows this formula: $\frac{V}{2s+1}$ (s+1 is an exponential operation) V= Number of students at the faculty S= Number of student parliament	The committee feels it necessary to display the formula directly in the statutes, so that it clarifies the distribution mandate.	

				representatives the faculty is allocated		
15	50	Ad		The basis for calculation is presented at orientation before the fall faculty general assembly	The committee wishes to include that the basis for calculation is presented to orientate the Student Parliament	
16	51-53	Am	§ 3-3 The constituent student parliament is chosen for a calendar year. A constituent meeting is held in the period between the institute general assembly and new year.	§ 3-3 The constituent student parliament is chosen for a calendar year. A constituent meeting is held in the period between the faculty general assembly and new year.	Editorial chance from institute- to faculty general assembly	
17	57	Ad		Electronic voting is except from this provision. §3-10	Electronic voting must be except from this provision when case papers are not made available for all students beforehand. Must be in conjunction with the committee's proposal 23 about electronic voting	Approved of together with proposal 23
18	58	Ad		The provision that the summon and case papers should be available to all students in the first paragraph entails that these should be translated to English. In case of doubt about translation, the Norwegian version will be the basis for understanding. Further	The committee proposes a new paragraph 2 in § 3-4. This states that the case papers must be translated to English, and describes what is practiced today. There is also a provision about if there is debate about the translation, the Norwegian version will be the basis for understanding. The committee does not see it necessary to	

				provisions are given in the instructions for the Student parliament.	specify the language requirements, other than to refer to the provisions on this in the instructions.	
19	59	Am	§3-4 Meetings and summons (...) All students have the right to submit cases to the Student Parliament	§3-4 Meetings and summons (...) All students at NMBU with a valid semester registration have the right to submit cases to the Student Parliament	To specify that this right only applies to students of NMBU with a valid semester registration.	
20	60	Ad		This provision does not apply to cases that are categorized under “additional cases”. This is further specified in the Student Parliament’s instructions.	This explains that additional cases can be brought forward up until the opening of the Student Parliament, which is in practice today. (This will be an addition to § 3-4 Paragraph 2)	
21	69-74	Am	§ 3-6 Voting rights and voting The Student Parliament’s representatives have a voting right. If a main representative notifies of an absence, their appointed substitute as a voting right when in attendance. Decisions in the Student Parliament are made with a simple majority. Decisions are made with hand raising, unless one representative asks for a written voting.	§ 3-8 Voting rights and voting The Student Parliament’s representatives have a voting right. If a main representative notifies of an absence, their appointed substitute as a voting right when in attendance. Decisions in the Student Parliament are normally made with a 50% majority. Decisions are made with hand raising, unless one representative asks for a written voting.	The committee wishes for 50% majority voting to be the norm instead of simple majority voting. This will make the statutes resemble closer what is in practice today, and gives stronger requirements for a majority for decision making. This committee sees a simple majority as too weak of a majority requirement.	

22	74-75	Am	§ 3-6 Voting rights and voting (...) With a continued tie after a second voting, the decision will be made according to the case's suggestion.	§ 3-8 Voting rights and voting (...)With a continued tie after a second voting, the decision will be made according to the case's suggestion. If no suggestion is made then the proposal will be struck.	This proposal is a result from the discussion about a “suggesting organ” at Student parliament 1. The committee strongly suggests that this suggestion fails, and that the Student Board remains the “suggesting organ.” If a suggestion is not made there can easily be chaos in the handling of the case. It is also deemed appropriate that the Student Board, who has the best oversight over the daily operations, can make suggestions. This does not imply that AU should act as a censoring body, or that it would be impossible to make a contradicting suggestion.	
----	-------	----	--	--	--	--

23	76	Ad	<p>§ 3-10 Electronic Voting Electronic voting can be used to make decisions about single cases. Electronic voting is carried out in the method described in the instructions for electronic voting. The deadline to vote electronically is within 7 days.</p> <p>Electronic voting cannot be used to vote on matters concerning the following: -Elections -Cases of mistrust -Changing to the Student Parliament's committee documents and instructions -Appointment of the student representatives to councils and committees -Other matters of considerable character</p> <p>Main student parliament representatives have the right to electronic voting. Electronic voting cannot take place if one or some student parliament representatives wish to handle the case at a normal student parliament before the deadline. The desire must be justified.</p>	<p>The Committee sees it as necessary to incorporate a statement about electronic voting into the statutes.</p> <p>Must be seen in accordance with the committee's proposal 17.</p>	<p>Approved of together with proposal 17</p>
----	----	----	---	---	--

24	77-79	Am	<p>§ 3-7 Speaking and proposal right Everyone has a right to speak at Student parliament meetings. All students at NMBU have the right to propose cases at Student parliament meetings.</p>	<p>§3-9 Speaking and proposal right All students with a valid semester registration have a right to speak at Student parliament meetings. The Student Board and Student Parliament representatives have the right to propose cases at Student parliament meetings.</p>	<p>The change limits who has the right to speak and propose cases at Student Parliament. The proposal also limits who has the right to deliver proposals during the meeting. The student parliament can still grant others this right.</p>	
25	79	Am	<p>With a simple majority, the Student Parliament can allow other people the right to propose cases in individual cases.</p>	<p>With a 50% majority, the Student Parliament can allow other people the right to propose cases in individual cases.</p>	<p>Change from simple majority to 50% majority.</p>	
26	81-92	Ad	<p>§ 3-8 Representation at the Student Parliament The following people are required to attend Student Parliament, and are required to give a written notification before the meeting if they cannot attend: -The Student Parliament's Representatives - The Student Parliament's Student Board - The Student Parliament's organizational secretary At least one representative from the following organs must attend the meeting: -The Student Representative in the University Board</p>	<p>§ 3-5 Representation at the Student Parliament The following people are required to attend Student Parliament, and are required to give a written notification before the meeting if they cannot attend: -The Student Parliament's Representatives - The Student Parliament's Student Board - The Student Parliament's organizational secretary -The Student Parliament's Chairman At least one representative from the following organs must attend the meeting: -The Student Representative in the University Board</p>	<p>Addition of the Chairman and Control Committee.</p>	

			<ul style="list-style-type: none"> -The Student Representative in the SiÅs board -The International Student Union (ISU) 	<ul style="list-style-type: none"> -The Student Representative in the SiÅs board -The International Student Union (ISU) -The Control Committee 		
27	93-95	R	<p>The following people are encouraged to attend the Student Parliament:</p> <ul style="list-style-type: none"> -The Student Representatives from the Student Council -Presidents of the Student Councils 		The sentence is not precise and the statutes do not need to encourage anything.	
28	97	Am	All students at NMBU have the right to attend and speak at Student Parliament.	All students at NMBU have the right to attend Student Parliament.	Take out the speaking right. The speaking right is protected in §3-9	
29	99-102	Am	<p>§ 3-9 Closing of the meeting</p> <p>The Student Parliament's meetings are open. The Student Parliament can decide to close a meeting with a 2/3 majority from the representatives in attendance. With the closing of a meeting, separate minutes</p>	<p>§ 3-6 Closing of the meeting</p> <p>The Student Parliament's meetings are open. The Student Parliament can decide to close a meeting with a qualified majority.</p> <p>If a meeting is closed, only AU, the Student parliament representatives, secretary and</p>	The committee feels the need to specify the practices around closing a meeting. Therefore this statute has been changed to outline who stays in the room if a meeting is closed. There is also a change in the wording "exempt from public disclosure" to "withheld from public disclosure" to avoid specifications in the legislature.	

			will be recorded that are exempt from public disclosure.	control committee can remain in the room. Separate minutes will be recorded that are withheld from public disclosure.		
30	104-111	Ad	§ 3-10 The Student Parliament representatives automatically resign from their position in the Student Parliament when they are elected to the following organs: -The Student Parliament's Student Board -The University Board -The SiÅs Board -The Student Board of the Norwegian Student Organization.	§ 3-11 The Student Parliament representatives automatically resign from their position in the Student Parliament when they are elected to the following organs: -The Student Parliament's Student Board -The University Board -The SiÅs Board -The Student Board of the Norwegian Student Organization. -The Control Committee	Members of the Control committee are added to the list of those who resign their position in the Student Parliament.	
31	112	Ad		In cases of position resignation there will be a supplementary election in accordance with § 5-5	Specified that there will be a supplementary election. Must be seen in accordance with proposal 46 about supplementary elections.	Approved of together with proposal 46
32	112	Ad		§3-12 Temporary place allocation In the case of partiality, there will be a temporary place resignation. This means that the representative withdraws from their position in cases where it applies. In the case	Temporary place resignation maintains proper case handling in cases handling partiality. This must be seen in accordance with proposal 48a about partiality.	Approved of together with proposal 48 a

				of temporary place resignation the deputy will take over cf. § 6-1.		
33	115-118	Am	§ 4-1 Powers and functions The Student Board (AU) carries out the Student Parliament's daily operations and represents the Student Parliament between meetings. AU can make decisions in urgent cases, cases that are delegated due to earlier decisions in the Student Parliament, and cases that they feel do not need to be handled by the entire Student Parliament.	§ 4-1 Powers and functions The Student Board (AU) carries out the Student Parliament's daily operations and represents the Student Parliament between meetings. AU can make decisions in urgent cases, cases that are delegated due to earlier decisions in the Student Parliament, and appoint people to non-decision making committees.	The committee believes that "entire student parliament" is not precise. The Committee wants to protect the purpose with the statute that is the purpose behind the provision, and therefore states that AU can appoint people to non-decision making committees. This is currently specified in the working instructions for AU.	
34	119	Am	§ 4-1 (...) AU makes proposals in all cases handled by the Student Parliament, with the exception of election cases.	§ 4-1 (...) AU can make proposals in all cases handled by the Student Parliament, with the exception of election cases.	<p>This proposal is a result of the discussion about "proposing organ" in Student Parliament 1</p> <p>The committee hopes strongly that this suggestion does not go through, and that AU remains the proposing organ in all cases, besides election cases. If a suggestion is not made there can easily be chaos in the handling of the case. It is also deemed appropriate that the Student Board, who has the best oversight over the daily operations, can make suggestions. This does not imply that AU should act as</p>	

					<p>a censoring body, or that it it would be impossible to make a contradicting suggestion.</p> <p>(Must be seen in conjunction with proposal 21)</p>	
35	135-139	R	<p>§4-4 Observers</p> <p>The following are the required observers in the Student Board who have speaking and proposal rights:</p> <ul style="list-style-type: none"> -Student Representatives in the Student Board -The Student Parliament's organizational secretary -The president of the student council at Campus Adamstuen in the transitioning period with two campuses. The Student Board has the power to all in all observers as needed. 		<p>After speaking with the Student Board, the committee hardly sees it as necessary to have required observers at meetings. This of course does not prevent the Student Board from inviting observers if they feel it necessary.</p>	
36	143	Ad	Chapter 5: Elections	Chapter 5: Elections and appointments	A new and broader title.	
37	144	Am - (moving)		§ 5-1 Eligibility for the Student Democracy	The paragraph is moved from Chapter 1 to Chapter 5, because this is where the committee feels it belongs. This needs to be seen in accordance to proposal 7.	Approved of together with proposal 7

38	144	Am		§ 5-2 Electronic ballot elections	New title! Electronic ballot elections will be a collective paragraph for everything to do with electronic voting. The various choices will be given letters. This is to collect electronic ballot voting in one place and to make it more of an overview. (This means that AU is split on how they vote. Needs to be seen in conjunction with the proposal for the new §5-3)	Block with proposal 43
39	145	Am	§ 5-1 Elections for the Student Board	§ 5-2 a) Elections for the president and vice president of the student board.	Clarification.	39, 40 and 41 are approved of together.
40	155	Am	§ 5-2 Elections to the University Board	§ 5-2 b) Elections to the University Board	Clarification.	39, 40 and 41 are approved of together.
41	169	Am	§ 5-4 Elections to the Faculty Board	§5-2 c) Elections to the Faculty Board	Clarification.	39, 40 and 41 are approved of together.
42	155-157	Am	§ 5-2 Election to the University Board The two student representatives in the University Board are chosen with an electronic ballot vote, where all students with a valid semester registration have the right to vote.	§ 5-2 b) Election to the University Board Two student representatives are to be elected, one of each gender, with a deputy. They are chosen with an electronic ballot vote, where all students with a valid semester registration have the right to vote.	In accordance to the university's election regulations, the voting must be gendered and each should have a deputy.	

43	158-159	R	In the transition period with two campuses, one representative of the University board should be from Campus Adamstuen, and one from Campus Ås.		The sentence is removed since it is no longer applicable.	
44	149-153	Am - Moving		New § 5-3 Members of the Student Board	<p>This change must be seen in conjunction with the distinction between electronic ballot voting and other voting made by the student parliament. The Student Board is therefore split into two paragraphs since the president and vice president are voted on through a different method than the other members of the Student Board. The addition is an adjustment of placement and paragraphs and is editorial.</p> <p>Must be seen in conjunction with proposal 38.</p>	Approved of together with proposal 38
45	161	Am	§ 5-3 Other elections in the Student Parliament	§ 5-4 Other elections and appointments in the Student Parliament	A change of § in accordance with the above. Numbering is normally to be taken care of as an editorial adjustment, but since “appointments” is in the title, that needs to be addressed as an amendment proposal.	
46	161	Ad		<p>§ 5-5 Supplementary elections</p> <p>Normally, a supplementary election will be held in the case of place resigning. Supplementary elections follow the same election rules as normal elections. This can be adjusted in cases of urgent votes, or other reasons in which it is appropriate.</p>	The committee wishes for a statement about supplementary voting in the Statutes. (This will be a new §5-5, given that all other proposals go through.)	Approved of together with proposal 31

47	173	Ad		Chapter 6: Partiality	The committee proposes a new chapter about partiality.	
48a	173	Ad		<p>§ 6-1 Impartiality For someone to be “partial” entails that there are circumstances that are likely to cause bias in the person’s judgment. This can happen when a person is a part of a case or has strong personal consequences from the results of a case, or has close family with the previously mentioned.</p> <p>In order to have good administrative practices, questions of partiality must be strict. This means that a lot must happen to name a representative partial. Those that are named partial must temporarily resign from the case, cf. § 3-12.</p> <p>Cases of partiality are handled with a 50% majority voting from the relevant organ, and the person in question cannot vote. If more than one person in a case is questioned about partiality, none of the involved can partake in voting about their own or others’ partiality, unless the organ is no longer a decision making organ in</p>	<p>The committee proposes that this statement about partiality be adopted into the statutes. This has come out of discussions at the Student parliament and input. The committee has attempted to formulate a relevant and precise statement, although there will always be room for interpretation in question of partiality. The committee’s proposal is impaired by normal practices in administrative bodies and legislation.</p> <p>(cf 3-12 2. Paragraph is dependent on whether or not this is adopted).</p>	Approved of together with proposal 32

				<p>the case. In this case, all meeting members can participate.</p>		
--	--	--	--	---	--	--

48b	173	Ad	<p>§ 6-1 Impartiality For someone to be “partial” entails that there are circumstances that are likely to cause bias in the person’s judgment. This can happen when a person is a part of a case or has strong personal consequences from the results of a case, or has close family with the previously mentioned.</p> <p>In order to have good administrative practices, questions of partiality must be strict. This means that a lot must happen to name a representative partial.</p> <p>Cases of partiality are handled with a 50% majority voting from the relevant organ, and the person in question cannot vote. If more than one person in a case is questioned about partiality, none of the involved can partake in voting about their own or others’ partiality, unless the organ is no longer a decision making organ in the case. In this case, all meeting members can participate.</p>	<p>Proposal 48b is identical with proposal 48a except that the sentence “Those that are named partial must temporarily resign from the case, cf. § 3-12” is removed. This makes it possible to approve of a partiality paragraph that does not say anything about temporary appointment. The committee first suggests 48a, and then 48b in case 48a is not approved of in its association with proposal 32.</p> <p>Proposal 48b is automatically removed if 48a is approved.</p>	
-----	-----	----	---	--	--

49	180	Ad		<p>§ 7-2 Ability to ask for a statement from the control committee</p> <p>If cases of mistrust are brought forward, both parties can ask for a statement from the control committee in sufficient time before the case is handled.</p>	<p>The committee wishes to put in a statement about the ability to ask for a statement from the control committee if questions of mistrust arise. This is in accordance with the instructions for the control committee.</p>	
50	181-184	Am	<p>§ 6-2 Issues of mistrust against the representatives chosen by the student parliament</p> <p>With a 2/3 majority vote amongst representatives in attendance, the student parliament can decide that an officer is mistrusted, following statutes §§ 5-1 second paragraph, and 5-3. Those who are deemed distrusted must immediately resign as an appointee from the student parliament.</p>	<p>§ 7-3 Issues of mistrust against the representatives chosen by the student parliament</p> <p>The Student Parliament can, with a qualified majority vote amongst representatives in attendance, the student parliament can decide that an officer is mistrusted, following statutes §§ 5-2 a and b. Those who are deemed distrusted must immediately resign as an appointee from the relevant position.</p>	<p>This change is editorial.</p>	
51	191	R	<p>Those who are deemed distrusted must immediately resign as an appointee from the student parliament.</p>		<p>This sentence should be removed because it is unnecessary. This is already outlined in the election rules.</p>	
52	192	Ad		<p>Student representatives in the University board cannot be accused of mistrust as this goes against the <i>Lov om universiteter og høyskoler</i> § 9-8. (Laws of universities and higher schools)</p>	<p>This specification with reference to legislation should be added to the statutes because the issue has come up previously. This is to clarify our own statutes and make sure they do not lead to any unlawful decisions.</p>	

53	204-210	Am	<p>§ 7-3 Instructions for the faculty level The Student Parliament accepts the structure and composition of the Student Councils at the faculty level.</p> <p>§ 7-4 Instructions for the Student Councils The Student Parliament accepts a standardized instruction for all student councils at NMBU. The student councils have the possibility to develop their own additional instructions, but not remove or change the composition approved of by the student parliament.</p>	<p>§ 8-3 Instructions for the Student Councils The Student Parliament accepts a standardized instruction for all student councils at NMBU. Instructions for the faculty level The Student Parliament accepts the structure and composition of the Student Councils. The student councils have the possibility to develop their own additional instructions, but not remove or change the composition approved of by the student parliament.</p>	Combine 7-3 and 7-4 into one new paragraph. Following the shift from institute to faculty. (If the earlier proposal is approves this will be a part of chapter 8.)	
54	10	Ad (moving cf proposal 9)		<p>Chapter 10: Membership in the national student organization § 10-1 Membership in the Norwegian Student Organization (NSO) The Student Democracy is a member of the Norwegian Student Organization (NSO). Withdrawal must happen in accordance with NSO's regulations.</p>	Membership/withdrawal from NSO is made into a new chapter 10. This must be seen as connected to the committee's proposal 9. The committee feels like it is a more natural placement. The only change is to make it its own chapter, and a small change in the paragraph name. In reality this will be an editorial change.	<p>Approved of together with proposal 9</p> <p>(moving of §1-3 to a new chapter)</p>

55	238-240	Am	§9-2 Decisions and effectiveness With a 2/3 majority vote amongst representatives in attendance, the Student Parliament can decide that changes go into effect immediately after they are adopted.	§11-2 Decisions and effectiveness With a qualified majority vote amongst representatives in attendance, the Student Parliament can decide that changes go into effect immediately after they are adopted.	The committee sees the new form of voting as necessary for making an amendment and implementing immediate changes. This means that 2/3 (a qualified majority) of all representatives vote for it. (In the case that the earlier proposal is accepted this will be a part of chapter 11.)	
56	249	Am	Qualified majority: A majority is reached when over 2/3 of the participants voting vote for something	Qualified majority: A majority is reached when 2/3 or more of the participants voting vote for something	The old formulation contains a factual error since 2/3 is sufficient per definition.	
57	251	Ad		Absolute qualified majority: A majority is reached when 2/3 or more of the participants voting vote for something	The committee would like to add a new majority voting statement. The committee has called it an “Absolute qualified majority” which is not a terminology often used together, but the committee feels it is necessary and easy to understand. This proposal must be seen together with the current §9-2 and proposed new §11-2, proposal 55	

33 Attachment 2 Amendment Proposal Rules of Procedure and Agenda

Proposal nr.	Ref line nr.	Proposal type (Amendment, Addition, Removal)	Original text	New text	Reasoning	Proposals that are approved of together
1	5	Am	1.1 All who have a voting right must register at the start of the meeting.	1.1 All who have a voting right who are in attendance must register at the beginning of the meeting by a role call.	The committee believes that a role call will be a more effective way to register who is in attendance at the meeting, as well as make it easier for the representatives to learn each other's names.	
2	6	Am	1.2 If someone leaves the meeting before it is adjourned, their name and the case during which they left is registered.	1.2 If someone with a voting right leaves before the meeting is adjourned, a written message and their voting sign must be delivered to the secretary.	The committee feels this is a cleaner and broader way to follow who leaves the meeting and when. There is also a specification on who "someone" is.	

3	17-21	Am	1.6 Case papers and minutes are to be sent to the student parliament representatives, student representatives in the University Board (US), Research committee (FU), Education committee (SU), Tuntreet, the Samfunnet Committee, the Student Councils (SR), the International Student Union (ISU), student representatives in SiÅs, candidates who are running for positions, the Norwegian Student Organization (NSO) and the NMBU leadership.	1.6 Case papers and minutes are to be sent to the student parliament representatives, the Control Committee student representatives in the University Board (US), Research committee (FU), Education committee (SU), Tuntreet, the Samfunnet Committee, the Student Councils (SR), the International Student Union (ISU), student representatives in SiÅs, candidates who are running for positions, the Norwegian Student Organization (NSO) and the NMBU leadership.	Addition of the Control Committee	
4	22-23	Am	1.7 Case papers are to be made available on the Student Board (AU) website, on Fronter, and at the AU office.	1.7 Case papers are to be made available on the Student Board (AU) website, on electronic learning platforms, and at the AU office.	Switch out Fronter with Electronic learning platforms, in case Fronter should be discontinued.	
5	27-29	Am	2.1 Meetings at the Student Parliament are to be conducted after this Rules of Procedure and normal meeting practices. In cases of doubt, the Rules of Procedure and practice are to be interpreted by the moderator. The moderator's interpretation can be overruled by a simple majority.	2.1 Meetings at the Student Parliament are to be conducted after this Rules of Procedure and normal meeting practices. In cases of doubt, the Rules of Procedure and practice are to be interpreted by the moderator. The moderator's interpretation can be overruled by a 50%majority.	Switch out simple majority with 50% majority.	
6	30	R	2.2 Cases are to be handled according to the agenda.		The committee believes that this is obvious and unnecessary.	

7	32-34(Continuous)	Am	2.4 All decision and discussion cases start with a discussion round amongst institutions, preferably with the SR-presidents (the Student Council Presidents) if it is deemed necessary. Speaking time is two minutes per institute.	2.4 All decision and discussion cases start with a discussion round amongst faculties, preferably with the SR-presidents (the Student Council Presidents) if it is deemed necessary. Speaking time is two minutes per faculty.	Institutes no longer exist after the reorganization. This change will eventually be carried out through the entire document – that all “institute” be switched to “faculties.”	
8	35-38	Am	2.5 The following rules apply to input and replies: -Speaking time for input must not be longer than two minutes. -Two responses and a question response per question is allowed. The speaking time for this is under 30 seconds.	2.5 The following rules apply to input and replies: -Speaking time for input must not be longer than two minutes. -Two responses and a question response per question is allowed. The speaking time for this is under 1 minute.	The committee would like to change the speaking time for replies from 30 seconds to one minute, since in practice, 30 seconds is too short of a time.	
9a	39	Am	- The meeting leader can change the abovementioned points if they feel it is needed.	- The meeting leader can propose a change to the abovementioned points if they feel it is needed.	The committee strongly wishes that proposal 9a does not go through. This specifies that the moderators do not have the complete ability to decide, only to propose.	Would be approved instead of 9b Approved of together with proposal 12b

9b	39	Am	- The meeting leader can change the abovementioned points if they feel it is needed.	- The meeting leader and Student Parliament representatives can propose a change to the abovementioned points if they feel it is needed.	The committee strongly wishes that proposal 9b is approved. This specifies that the moderatos does not have the complete ability to decide, only to propose. It also adds that the student parliament representatives can propose to change the speaking times.	Would be approved instead of 9a Approved of together with proposal 12a
10	42-46	R	2.6 The following is allowed: -Max 2 responses per topic per student parliament representative -Max 2 responses from the case responsible -Max 1 response from others partaking in the meeting -Input from the discussion round does not count in these input limitations		The committee finds is hardly necessary to operate with strong limitations on the number of input and responses. Nor is it followed in practice. If these strict regulations are put into place it will result in unnecessary bureaucratization of the meetings. The purpose of removing these limitations is to create more flexibility and flow.	
11	47-49	R	2.7 With a qualified majority, the topic can receive more input if the topic takes a significant unexpected turn. Proposals for this to happen must be brought forward in a written format before it can happen.		The committee finds is hardly necessary to operate with strong limitations on the number of input and responses. Nor is it followed in practice. If this strict regulations are put into place it will result in unnecessary bureaucrazation of the meetings. The purpose of removing these limitations is	This follows if proposal 10 is approved

					to create more flexibility and flow.	
12a	49-50	R	Proposal of increased speaking time for all at the meeting can only come from a participant with a voting right.		This is protected in proposal 9b and can be removed if proposal 9b is approved.	Approved of together with proposal 9b
12b	49-50	Am - moving	Proposal of increased speaking time for all at the meeting can only come from a participant with a voting right.	2-5: (...) Proposal of increased speaking time for all at the meeting can only come from a participant with a voting right.	If 9a is approved and 9b is accepted, this sentence is moved to point 2.5 as an option to keep the possibility to extend speaking time	Approved of together with proposal 9a
12c	49-50	R	Proposal of increased speaking time for all at the meeting can only come from a participant with a voting right.		<p>If 9a is approved of together with 12b, this means that the sentence proposed in 2-5 is removed.</p> <p>If 9b is approved together with 12a this is removed.</p> <p>If 9b is approved of together with 12a the proposal is removed</p>	Is handled secondly if 9a and 12b are approved.

13	58-60	R	2.9 If one is included in the speaking list they can receive a response from the meeting leader if it is done. This can, for example, be done with a nod. If the leader shakes their head means that they cannot be included in the speaking list.		Superficial and falls under the regular meeting practices cf. 2.1	
14	61	R	2.10 The meeting leader shall inform when the speaking time is almost up		Superficial and falls under the regular meeting practices cf. 2.1	
15	62-65	R	2.11 The meeting leader shall -Inform before every speech whether they have input, replies, or case information -Periodically refer to the speaking list and after each response inform about the responses to the input		Superficial and falls under the regular meeting practices 2.1	
16	66-67	R	- When necessary, prioritize input earlier in the case or when the meeting has had its word.	- When the meeting leader sees it as necessary they can propose to prioritize speakers who have not spoken on the matter.	The committee finds it more important to only prioritize those who have not spoken on the matter if the meeting is running out of time.	
17	66-67	Am - moving		Following up on 2.5 the following rule does not apply for input and responses: (New line 42)	The committee believes this point is more fit under 2.5 Must be seen in conjunction with proposal 15, if the removal goes through this point will stand alone.	

18	68-69	Am	2.12 The meeting leader can choose to draw the line on a speech. The moderator then decides if it is possible to continue at the next input. This can be overruled with a qualified majority. 2.12	2.12 The meeting leader can propose to draw the line on a speech. The moderator then decides if it is possible to continue after the following response and response decision. If the limitation is upheld this can be overruled with a qualified majority.	The committee believes that the moderator does not have a mandate to decide, only propose, not decide. The committee also wants to clarify that a qualified majority is needed to keep a limitation after it has been set. With a 50% majority, the Student Parliament can overrule the moderator's decision to set a speaking limitation cf.2.1	
19	75	R	3.1 All student Parliament representatives with a voting right are given a voting sign to be used when voting.		Attended to in proposal 1	
20	79-81	Am	3.4 If there are many decision proposals the moderator can find an appropriate form of voting. With a simple majority the Student Parliament can choose one of the forms of voting. As a rule, two opposing methods are proposed against each other.	3.4 If there are many decision proposals the moderator can find an appropriate form of voting. With a 50% majority the Student Parliament can choose one of the forms of voting. As a rule, two opposing methods are proposed against each other.	Changing from simple majority to 50% majority	
Agenda						

21	99-100	Am	<p>1. Constituting</p> <p>Cases that handle rules, approvals and appointments. Other cases must be sent in before or during the constituting.</p>	<p>1. 1. Constituting</p> <p>Cases that handle conduction of the meeting, approvals and appointments. Other cases must be sent in before or during the constituting.</p>	<p>Specification, changing from rules to rules for the conduction of the meeting.</p>	
22	102-104	Am	<p>2. Orientation cases</p> <p>- Cases that are only to orientate. If a debate is desired, the case must be put as a discussion case or decision case for the next Student Parliament.</p>	<p>2. Orientation cases</p> <p>- Cases that are only to orientate. The Student Parliament can consider themselves orientated, or not orientated. If a debate is desired, the case must be put as a discussion case or decision case for the next Student Parliament.</p>	<p>The committee wants to make it clear that the Student parliament has the opportunity to not approve of an orientation if they feel that they have not been properly orientated.</p>	
23	112-115	Am	<p>3. Decision Cases</p> <p>- Cases that require a binding decision. This applies to changes in the statutes or other committee documents, new or clarifications of policies, economic cases and other cases that require a vote.</p>	<p>3. Decision Cases</p> <p>- Cases that require a binding decision. This applies to elections and appointments, changes in the statutes or other committee documents, new or clarifications of policies, economic cases and other cases that require a vote.</p>	<p>The majority consisting of: Rolf; Johanne, Kerime and Jonas believe that there are an unnecessary number of case types, and that elections should be included in decision cases.</p>	
Dissent 1	125-126	Am	<p>5. Administrative cases</p> <p>Elections and appointments. Is closed after a decision or voting.</p>	<p>5. Cases that handle elections and appointment.</p> <p>Cases are closed after a written vote or voting with acclamation.</p>	<p>This does not apply for elections. Minority, consisting of: Kine, believes that it is necessary to have a separate category for elections, since elections are handled differently than decision cases during the meetings. Decision cases are cases that should be discussed to make sure</p>	

					everyone is on the same page.	
24		R	5. Administrative cases Elections and appointments. Is closed after a decision or voting.		To remove administrative cases as their own case category cf. the amendment proposal 23.	
25	121-123	Am	4. Discussion cases Are not to be voted over, but are the basis for AU to work further on the case. Elections and appointments. Will end with a vote to end.	4. Are not to be voted over, but are the basis for AU to work further on the case.	Remove the sentence, it is repetitive.	
26	132-133	Am	7. Evaluation of the Meeting Here, participants can come forth with critique or praise about the meeting.	7. Evaluation of the Meeting Here, participants can give feedback about the conduct of the meeting.	Committee does not find praise to be a part of the meeting evaluation. Feedback is also a more neutral word than critique.

Attachment 5 Working Instructions for the Student Parliament's "Semester's best lecturer" committee

Proposal taken up at Student Parliament 2, March 13th.

Purpose

- The committee for the semester's best lecturer looks for the best lecturer every semester that will receive the award from the Student Parliament.

Composition and meetings

- The committee consists of four members that are chosen at Student Parliament 1
- Members of the Student Board oversee the committee's decision.

- Members must be from different faculties and must consist of one international member.
- All members have the same authority and arrange meetings as needed

Tasks

- The committee proposes the semester's best lecturer every semester
- The committee needs to find numerous candidates from both campuses
- The members should strive for all information about nominations to reach out to students at both campuses, and throughout all faculties
- The Members shall find the number of students from the Students information center according to subjects of the 5 best nominated lecturers
- The members should attend at least one lecture for every one of the 3 best lecturers. This happens after the deadline for nomination has past.
- The committee must invite at least the 3 best lecturers for an interview.
- The committee brings forth proposals for the winner with their reasoning to a member of the Student Board that controls oversees the reasoning every semester.
- The awarding of the prize must be documented by the members through pictures or video. Pictures/video shall be shown at Student Parliament 4 (for the winner of the spring semester) and at Student Parliament 1 (for the winner of the fall semester)
- The members are to write a report that is delivered to the Student Board before the next committee is selected.

Other

Budget for the "semester's best lecturer" – the prize is decided by the Student Board

Attachment 6 Date plan for 2017, voted in 30.11.15.

Event/activity	Date	Student Council Meeting	SC dinner	Publishing Student Parliament Papers	Deadline Student Parliament cases
UU-seminar					
Kick off conference	3-5 February				
ST1	13. February	8. February	7. February	6. February	30. January
