Zurich, November 2017

Application procedure for exchanges within the Swiss-European Mobility Programme to ETH Zurich for the academic year 2018/19

Dear Partner,

We would like to inform you about our application procedure for your outgoing exchange students coming to ETH Zurich.

Please note the following important points regarding the application procedure:

**Nomination:**
Students may either upload a confirmation of nomination they have received from you, or you can send us a nomination by email. Excel sheets for several students are also fine, as long as all nominations include:

- Student’s full name, birth date and email address;
- Number of exchange semesters;
- Field of studies (ISCED and/or subject code).

**Transcript of records:**
During the online registration, students will be required to upload the transcript of records for their complete higher education studies to date. The transcript for the Bachelor studies must be included for students who are already in their Master studies. They can upload several separate documents, e.g. if their Bachelor transcript is from a different university.

In order to make sure our departmental exchange coordinator are able to get a clear idea about an applicant’s academic background we prefer applications from students with sufficient proof of performance at your University. We reserve the right to decline applications from students who have only very recently started their studies with you and not yet been able to establish a solid academic track record with you.

**Course units planned until the exchange:**
We also require applicants to upload a list of all the courses not yet shown on the transcript, which they are attending or plan to attend before the exchange begins. They may use the template provided on our website or make a list themselves.

**Requirements for the study plan:**
We expect students to carefully prepare a study plan according to our guidelines (e.g. regarding the minimum amount of credit points to be obtained, etc.). Additionally there is a section about more specific regulations concerning course selection for every single department on our website. Please follow the according links on our factsheet for details.

We will issue an electronically signed learning agreement based on the study plan upon approval by the departmental exchange coordinators. The learning agreement can be adjusted after the beginning of the semester. To keep the process lean and avoid unnecessary paperwork, we would appreciate if no additional documents in this matter had to be signed by our departmental exchange coordinators.
Further documents:
Applicants are required to upload a CV and a short letter of motivation (max. 1 page A4) during the application process. Please note that the complete application process is exclusively online, neither you nor the students need to send us anything by post.

Language skills:
Students do not need to provide a language certificate, but we do require incoming students to have at least a B2 level in the teaching language(s), i.e. English and/or German, depending on their choice of courses. However, a C1 level is highly recommended.

Scholarships:
Incoming students within the Swiss-European Mobility Programme will receive a scholarship from the Swiss Government, paid by ETH Zurich. Students apply automatically for the scholarship by applying for the exchange, no separate application is necessary! The monthly rates will remain approximately the same as in 2017/18, and are calculated as semester scholarships of 5 monthly rates per exchange semester, independently of the exact duration of stay.

Application information and deadlines for students:
Please find attached our factsheet for further information and useful links. The most important link for your students is this one here, where they can find all the information about the exchange and the application: https://www.ethz.ch/en/studies/non-degree-courses/exchange-and-visiting-studies/programmes/exchange-programmes/swiss-european-mobility-programme.html
The application function for 2018/19 will be opened on February 1, 2018 and the application deadlines are April 15 (autumn semester) and October 15 (spring semester).

Thank you for informing your outgoing students about our application procedure. Please do not hesitate to contact us should you have any questions!

We look forward to our continued cooperation.

Best regards

Patrick Bisang
Student Exchange Coordinator for Swiss-European Mobility Programme Incoming Students
