

Digital parking solution for employees and students

New digital solution for employee and student parking

In the autumn of 2018 NMBU and Q-Park are launching a new parking solution for employees and students.

From 1 October all employees and students must obtain a new parking permit.

After 1 November 2018, everyone parking at Campus Ås must have signed the new parking agreement.

Those who have created a user profile in the current Q-Park solution must establish a new parking agreement in the existing profile. New users must create a user profile in the parking solution before creating a parking agreement.

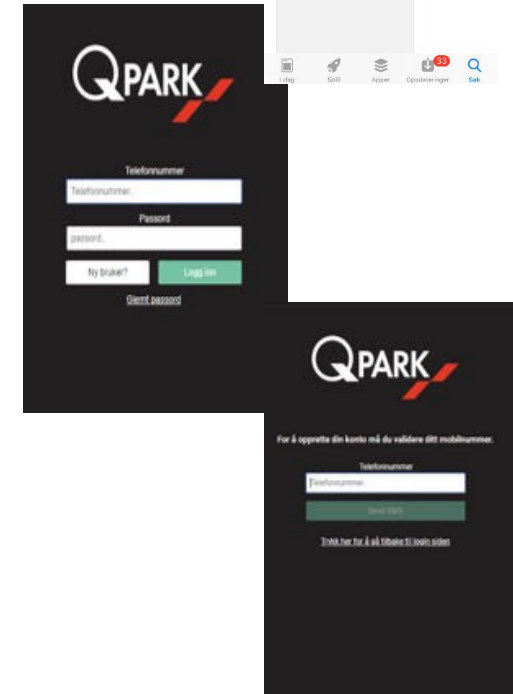

New solution:

- You create a user profile in Q-Park's parking solution (those who already have parking may use their existing user profile)
- You choose to establish a parking agreement
- The system checks the employee/resource/student number, and you are approved if you have a valid number.
- You may subsequently manage your vehicles using an app (Android or iOS) or via the website: <https://qpark-permit.giantleap.no/>

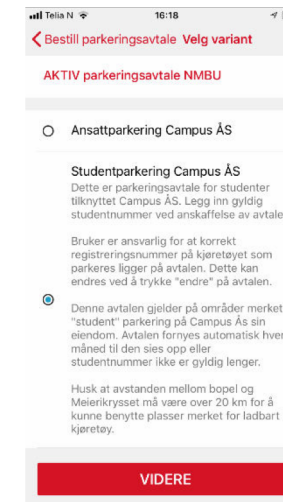

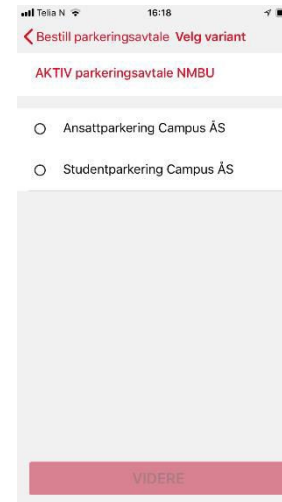

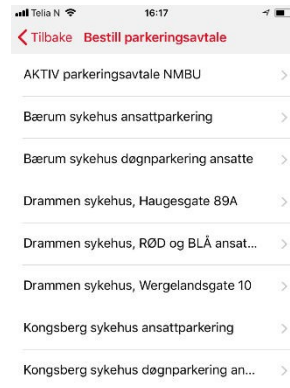

Register as new user

- Go to Google Play (Android) or the App Store (iOS) and download the app by searching for “qpark”
- Press “New user?”
 - If you previously have been assigned parking, you may use your previous login. If so, skip the next two steps.
- Enter your phone number, and press “Send SMS.”
 - This may take a few minutes
- Enter the code you receive by SMS and press “Validate code”

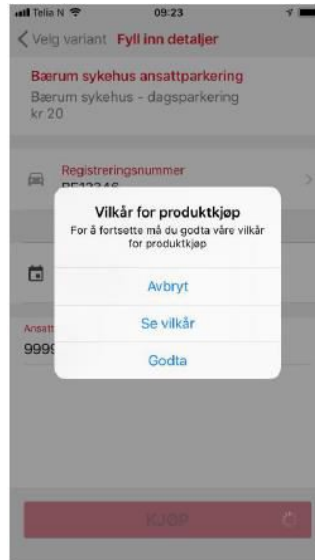

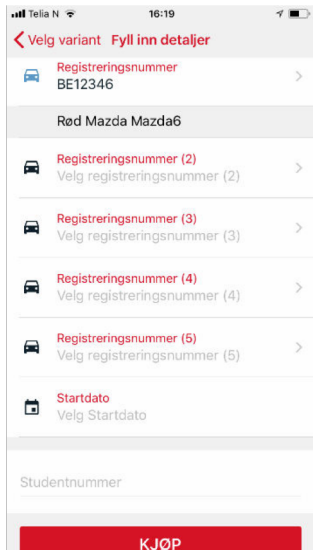

Purchase parking agreement

- Press “Order parking agreement”
- Choose “ACTIVE parking agreement NMBU”
- Choose whether you are Employee or Student
- Review the product description, and press “CONTINUE”

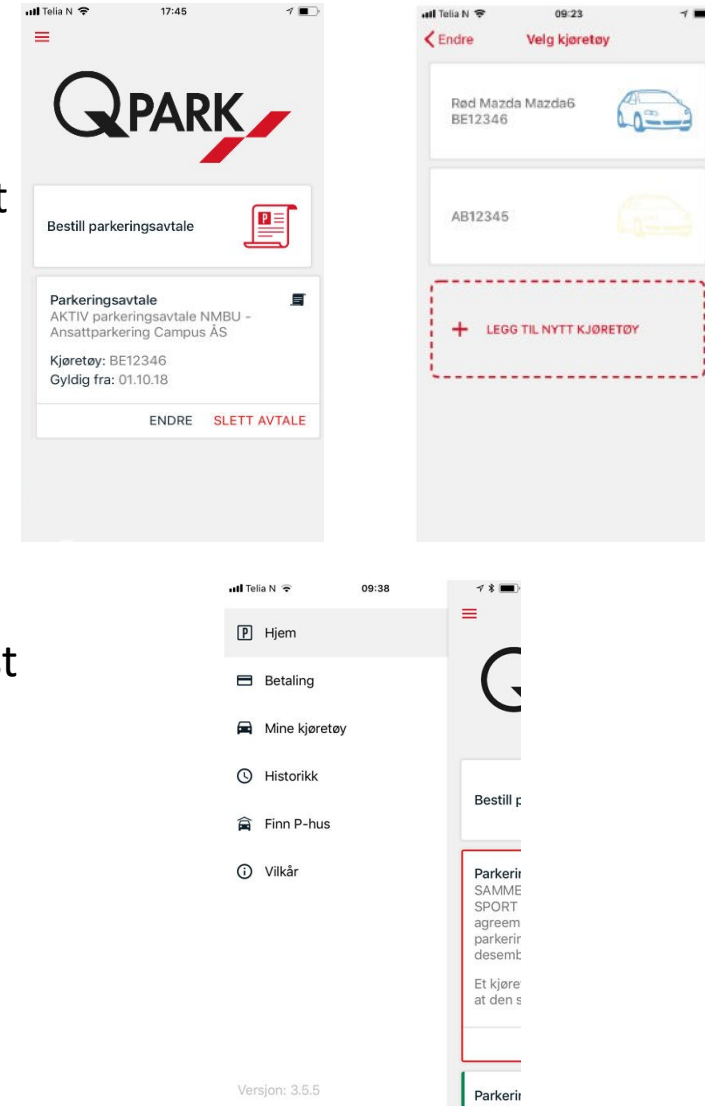

Purchase parking agreement

- Enter at least one registration number, start date and Student/Employee/Resource number. Press “BUY” (free for employees and students)
- Read the terms and conditions and accept these.
- You have now acquired a parking agreement

- To open the menu in the app, press the icon with the three horizontal red lines at the top left of the home page in the app
- To enter more or change the registration number, press “Change” at the bottom right of the parking agreement. You must have a valid parking agreement to do this.
- You may enter up to 5 vehicles at once.
 - NB: It is only permitted to park ONE vehicle at any given time
- IMPORTANT: The “My vehicles” menu is only a list of your registration numbers. In order to park, the registration number must be added to the actual parking agreement.
