

Candidate presentation Thobias Hans Østvedt

Faculty KBM

Born: 1998

Hi!

My name is Thobias, and I wish to stand for election as male representative for the faculty board for KBM. I am currently on my first year on my Masters in chemistry, and I have been class representative in the student council ca. 3 and a half years. I have in addition been student representative in FAK-SU for one semester. I enjoy being part of the student democracy here at NMBU, and I hope for the opportunity to be a part of the faculty council.
