

Candidate presentation Pontus Fredrik Birkedal

Faculty HH

Born 1996

Hello!

My name is Pontus Fredrik Birkedal and are hereby applying in the student democracy election 2020 for a permanent seat on the Faculty Board for the Business School on NMBU. I have at this time a seat on the Faculty Board, and i am feeling that i have more to give on behalf of the students. Will therefore claim that i am well aware of what my role in the position is about and use that as an advantage to drive forward what we students sees as important. My vision in the board is to operate as a connection between the board and the students. We are all here well invested in NMBU in form of the student loan we have to take to live here aswell as the time we put here at the faculty. My goal with the position at the Faculty Board is to facilitate that the time we have here at the Business School will give us what we need to perform later in life at our future work. Vi have chosen NMBU because we believe that the school can give us the relevant education we need. I wish to keep my position in the Faculty Board to make sure that's the case.
