

Student Parliament at NMBU

Hei hei,

Are you looking for a Student Board member, who will

- Represent the student voices and act as a link between the students and the university?
- Facilitate solving of different cases for the benefit of all students?
- Assist in sustaining Student Democracy and inclusivity across all student communities within NMBU?

If so, then need look no further. You will see me working to ensure that the stories of students are brought to the table of the university board. Though it's been only 4 months of me at As, I have been actively involved in different matters to be the change I would like to see around me. I am currently the president of ISU, and I am also a member of NEPSA because I believe that international students are a very important part of this university and I want to make their voices heard as well.

I would very much like to take the position where I will be able to make a strong impact on campus-wide decisions. I am responsible, determined, hard-working, and passionate about helping other people. I would like to discuss opportunities with AU about how I personally will be interested in giving innovative ideas that can solve problems for students and student societies. I am looking forward to be a very much needed international voice in the Student Democracy of NMBU.

Warm Regards,

Nisha Jha

(First-year Master Student M-IES from Nepal)
