

Candidacy for Iben Lund Johansen for faculty Board, KBM

My name is Iben Lund Johansen, I am 22 years old and studying my 3rd year in Chemistry- and Biotechnology. I'm running for election as female representative in faculty board.

I have been active in the student environment since I came to Ås, among other things in the student parliament, "sosial studiegruppe" and selection for dean in KBM. I am currently in my second period in the Student Parliament. I have gotten well into the Student politics through these engagements.

My engagements have been very interesting and therefore I want to continue, now in the faculty board. It is important for me that the voice of the students are clear, and gets listened to. I have gotten insight in the KBM-students everyday lives and needs through the student council at KBM, and I would love to raise these voices further. KBM has a good student environment and study quality, and I want to help strengthen this even further.

I hope I get the opportunity to be the voice of the KBM-students in the faculty board.
