

Dear MINA students!

My name is Cecilie Ane Madeleine Hereid Henrichsen and I hereby run for becoming the new female studentrepresentative on MINAs faculty board. I am 25 years old and studying renewable energy in my third year.

Throughout my years as a student I have been very active in the student community. At the MINA faculty I have earlier been the facultys buddy chief, I have been the studentrepresentative in the evaluation committee and one of the facultyrepresentatives at the Student Parliament.

Through my positions I have gained good insight within the MINA faculty and also outwardly at the University.

I am described by others as determined, engaged and fair. These are qualities I believe will come in handy as a student representative on the faculty board when strategy and action plans are to be developed as I am fearless in new roles and will fight for my fellow students.

It is important to me that all students at MINA have a voice that is heard in the faculty board, and I hope you will give me the trust to represent you.

Good election!
