

Hello!

My name is Thea and I'm a 4th year student at the faculty of veterinary medicine at NMBU. For the last two periods I have been a part of the faculty board as a student rep. I find the meetings very interesting, and I feel that the students does have a saying in most of the cases. I feel trusted amongst my fellow students so that they can express their worries and thoughts, and feel safe that they will be heard. The last few years the relocation of campus from Oslo to Ås has been frequently on the agenda. I am really engaged in this process, and would like to keep working to keep the students best interests in mind.

I would like to be a part of the faculty board for the next year to come because I really enjoy the work that we are doing. It is an educational process to really get to see how a complex faculty like this works, and I would love to be a part of this also for the next year!
