

(Ref: 18/06345-6)

Election to the Faculty Boards at NMBU 2022

Presentation of the candidate. Highlights.

Name: Tin Phan

Work location (Faculty): Landsam

Position: Research fellow/stipendiat

Education: Master in Architecture M.Arch.

Work Experience:

As a professional, I believe I have embodied this candidacy as a temp (temporary worker) for 6 straight years, both in private and public sector. In other words, I have never signed a contract with any firm but my own but been parts of complex architecture/urban development projects. As part of the national young talents initiative, Wildcard-ordningen, I have spoken on the behalf of younger professionals in the Norwegian architecture industry.

- 2016 now **Tin.uno**, award-winning private practice (consultancy and freelancing).
- 2021 2021 **Oslo Business Region,** project employee on Restart Oslo (temporary).
- 2019 2020 **NMBU**, project employee on SITRAP (temporary).

Organizational experience / advice / controls etc. Relevant appointments and / or management experience:

I have done volunteer work as both a student and a professional, on boards regarding academic/professional interests (e.g., SITRAP), urban life, and local business development.

- 2022 now **Oslo Business Region** Advisory Board, member.
- 2017 2020 **Oslo Urban Arena**, member of the programme committee.
- 2019 **Landbrukskvartalet**, member of the resource group.
- 2016 2018 **Levende Lokaler DogA**, member of the resource group.
- 2014 2015 **Magasinet KOTE**, student member of the web editorial.

Why I want to be a member of the board:

I was asked to run for this candidacy and chose to rise to the occasion. I am very passionate about the overall academic interests of the few and many. Temps are a natural part of this, as I deeply understand the struggles that comes with not having security or working on a short-term contract.

What I see as the main challenges for the board:

Tin's main causes are the freedom of speech and mental health among the Norwegian research fellows. It can be problematic for temps to be open on matters that might diminish their future chances of employment. As a candidate for this board, I wish to be a champion of more transparency.
